MHTechFusion

Fusion of Code, Circuits, and Creativity.

From circuit to complete product.

COMPANY OVERVIEW / SELECTED PORTFOLIO

One engineering team connecting hardware, firmware, mechanical design and intelligent software. We support startups, researchers and product teams from concept and prototype through system integration.

ENGINEERING SERVICES

Embedded & PCB design
Architecture, schematics, PCB layout and bring-up.

Firmware & connectivity
Drivers, RTOS, sensor integration and BLE / Wi-Fi.

CAD & enclosure design
Mechanical CAD, product enclosures and hardware fit.

IoT, apps & cloud
Connected devices, apps, dashboards and automation.

Edge AI & computer vision
On-device inference, AI/ML and vision integration.

Industrial automation & CI/CD
PLC / HMI integration, monitoring and build pipelines.

SELECTED PROJECTS

01 / AUTOMOTIVE

SmartPTI truck inspection

BLE tyre pressure and temperature sensing, custom PCB, firmware and enclosure. Integrated IMU, GPS, SD storage, microphone, buzzer and inspection display.

SENSORS + PCB + FIRMWARE + ENCLOSURE

02 / MEDICAL-DOMAIN TECHNOLOGY

Wearable & stimulation platform

Sensor wristband with PPG, temperature and motion monitoring; BLE mobile integration; app-controlled stimulation; Firebase authentication, session storage and history.

WEARABLE + MOBILE APP + STIMULATOR + CLOUD

LET'S BUILD YOUR NEXT CONNECTED PRODUCT.
